## JNO. R. MOTT THINKS PEACE IS FAR OFF

Director General of United War Work Campaign Speaks in Chicago.

SAYS EVERY STATE MUST MEET ITS QUOTA.

If The Needs Of The Boys With The Colors Are To Be Adequately Met.

"Every State in the Union must plan to add largely to its present quota of the United War Work Campaign is to adequately meet the demands of our boys with the colors during the coming year," declared Dr. John R. Mott, of New York, director general of the campaign before a conference of delegates from 14 States at Chicago last Saturday. Kentucky delegates with others from the department were tremendously moved and inspired by Dr. Mott's address.

Dr. Mott has had charge of the army Y. M. C. A. work ever since the association entered welfare work overseas shortly after Germany started the war. He has visited Europe five times during the past four years and has gone to every part of the fighting front and into the prison camps. When the Y. M. C. A., the Y. W. C. A., the National Catholic War Council, the Jewish Welfare Board, the War Camp Community Service, the American Library Association, and the Salvation Army joined in the United War Work Campaign at the request of President Wilson Mr. Mott was unanimously elected director general of the campaign.

### Gives Five Reasons.

Herewith are given very briefly 5 reasons presented by Dr. Mott why the national quota of 170,500,000 must be largely increased during the campaign the week of November 11.

"First—Conditions are changing constantly. More men are overseas now than it was considered possible to move in that length of time. Personally, I believe the end of the struggle is far away. Even though the end should come next month we will have to reckon with the welfare of a million more men than we figured on last May when our budgets were made up and O. K'd by the war department.

"Second—In framing our budgets, the navy was left out. When we entered the war we had less than 200 ships; by Christmas we will have 2,000. Our navy today is larger than all the navies of the world combined at the beginning of the war. Look what that navy has done! Transported over two million men overseas with less than 300 lives lost. Nothing in history compares with it.

"Third—This is a war of the entire people. It is also a war on machines. In every war the burden has been heavier on the women and this one is particularly so on account of the women in munitions work. Eleven million graves are now filled and millions of maimed must be provided for. We will see the effects of this war in the bent backs of the women of this and coming generations.

"Fourth—This is a comprehensive service. We must take the American home, library, college, club, stage, gymnasium, athletic fields, churches and synagogues to the men. Surely the American people will not allow us to drop one of these.

"Fifth—We cannot neglect our allies. For three long years before we recognized our duty, they saw theirs. I have made five trips to Europe since 1914. The Y. M. C. A. which I represented put up the first French foyer, do soldier or, fireside, as the French term it. We did it only after repeated attempts with French army officials. Finally one general said he would allow one hut in one spot with one man in charge to try it out. We have just dedicated our one thousandth foyer do soldat. Every one of the thousand was made possible and was supported by American money. I saw Y. M. C. A. huts in the Alps 6,000 feet up. I have watched those huts go up in Russia, across Siberia, in prison camps, in Macedonia, Egypt, Palestine, East Africa.

## HAS FACED NEARLY ALL HUNS POSSESS

Wm. McGovern, of Free, Kentucky has received a letter from his son, James McGovern, who is in France, and has recently been wounded. In writing to his parents, young McGovern says:

"I have been 'over the top' several times, and have faced everything the Huns have except bayonets and they won't stand long enough for me to get close to them. They either run or throw up their hands and yell 'comrades.'"

McGovern is from Hancock county, but well known here. He is in the 84th Division.

### First Xmas Labels Arrive.

Washington, Oct. 28.—The first of the Christmas parcel labels designed to facilitate the shipment of holiday boxes to the more than 2,000,000 soldiers now in France have reached this country. In making this announcement today the Red Cross said relatives of soldiers now overseas probably will receive these labels in the course of a few days and should arrange to prepare the Christmas boxes with out delay. The boxes, with complete instructions regarding the articles which may be sent, may be obtained without charge at Red Cross chapters or branches after November 1.

Only one package for each soldier will be accepted by the War Department. Every man in the expeditionary forces has received a label and has been directed to send it to the person in the United States from whom he wishes to receive a Christmas parcel. Parcels that do not carry this label will not be accepted and none will be accepted after November 20.

## MR. DUTSCHKE'S SALE BRINGS GOOD PRICES

Prominent Stock Raisers Of The County Attended Baird Auctioneer

Altho it rained a steady downpour during the morning, the afternoon cleared off bright and clear, and the sale of Mr. Julius Dutschke's stock on his river bottom farm at Holt, Kentucky, last Thursday, was as brisk and invigorating as the October afternoon itself.

Mr. Dan Baird, a neighbor of Mr. Dutschke's, and a born auctioneer, cried the sale, and he never let the time lag for a moment. Breckinridge county's most prominent and well to do farmers and stock raisers were present and they came with a view of buying, as Mr. Dutschke's stock compares with his rich farm lands in quality.

After the sale, a supper, the kind that can only be found nowadays on the farmers' table, was served at the home of Mr. and Mrs. Fred Dutschke, and among those who enjoyed the genuine hospitality of this host and hostess were, W. R. Moorman, Sr., Thomas Beard, George E. Bess, Jas. Carman, A. T. Beard, M. D. Beard, Gid Burdette, George Beard, Jr., and William Gilbert, J. S. DeJarnette and Jno. D. Babbage.

## AMERICAN SOLDIERS HAVE CAPTURED

More Than 20,000 Prisoners And Freed 169 Sq. Miles In Less Than A Month.

137 BIG GUNS AND 230 ENEMY MACHINES.

Have Accomplished Many Difficult Tasks. 40,000 Engineer Troops Employed.

According to a correspondent of the Associated Press the American soldiers situated north-west of Verdun have been unusually busy during the last month.

A few of the things which the Yanks have done in less than thirty days time in their larger operations against the Germans, have been to capture more than 20,000 prisoners, free over forty-five villages and advanced to an average depth of ten miles. The advances were made under many difficulties too as the land was hilly, covered with deep ravines and woods. And another thing, they had to pass through four of Germany's best organized systems of trenches, which they did, and were stubbornly resisted all the way.

### Guns And Enemy Machines.

Another big accomplishment of the Yanks during those thirty days, was the capturing of 137 big guns, great stores of ammunition and war materials including locomotives and motor cars. Since Sept. 26, they have fired more than 2,500,000 shells, sometimes 150,000 shells were fired during the day.

American Aviators and Anti-craft guns have brought down 230 enemy machines and 23 enemy balloons since the latter part of September.

There are over 40,000 engineer troops working day and night rebuilding shell shattered roads, using crushed rock from the villages destroyed by the German shells. One of the most difficult tasks of the engineers, is the repairing of the roads and moving of troops, food and ammunition.

The engineers had terrible times in building bridges over roads in the Argonne where the Germans had fastened hundreds and hundreds of yards of barbed wire from tree to tree and it was impossible to cut it. Many of the roads in this territory were of black loam which became a morass in rainy weather and the engineers had to practically build bridges over many miles of such roads.

## YOUNG WOMAN DIES OF FLU IN CALIFORNIA

Mrs. Frank Weatherholt Formerly Of Cloverport Taken Suddenly

News of the death of Mrs. Frank Weatherholt, who died of influenza in California on Saturday afternoon, came as a shock to her many relatives and friends in this city. A few hours before the message of her death came. Mr. and Mrs. J. C. Weatherholt received a letter from their son, Frank saying that he and his wife were both ill with the influenza, and at ten o'clock the parents were informed of the death of Mrs. Weatherholt, who left a little baby girl only a few days old.

Mrs. Weatherholt's remains will be brought to this city for interment as soon as Mr. Weatherholt is able to make the journey.

Mr. and Mrs. Weatherholt were married in Owensboro, Kentucky, in September, 1917, and from there he went to Bakersfield, California, and joined later by his wife, who was before her marriage, Miss Mary Gibson, daughter of Mr. and Mrs. Wm. Gibson, of Prospect.

She was only twenty-two years old and was born near Ludburg, Kentucky. Practically all of her life was spent in this county, having lived in this city and Irvington until a year before her marriage, when she moved with her parents to Prospect.

Mrs. Weatherholt was a most lovable young woman and during her short life she made many loyal friends.

## Capt. Moremen Sends Copy of "The Camouflage."

The Editor of The Breckinridge News is in receipt of the initial copy of "The Camouflage," a semi-monthly magazine devoted to the interest of the U. S. Army Base Hospital at Camp Wheeler, Ga.

It was noted with pride that a Breckinridge county man, Capt. Lon B. Moremen, formerly of Irvington, is business manager of the magazine and one of the items under the "Local—ites" heading reads thus: "The oldest inhabitants now, are, Major Wheat and Capt. Moremen, in order of seniority of arrival in 1917. Their year in camp was up last month."

## New Draft Men To Be Called Shortly.

Washington, Oct. 30.—Men of the new draft ages will first be mobilized in large numbers early in November under a draft call now in preparation at Provost Marshal General Crowder's office. It calls for the enrollment of more than 200,000 men qualified for general military service. They will be furnished in proportionate numbers by every state in the union.

Draft calls suspended during October calls probably will be completed before the November quota is started to the cantonments.

## DR. CLARK CALLED TO DAVIESS COUNTY

By Medical Defense Board Leaves Before Nov. 15. Practiced here 2 years.

Dr. F. S. Clark who volunteered his service in the Medical Service Corps last July received notice last week that his services were needed at Rome, Ky., in Daviess county, owing to the scarcity of general practitioners in that territory. Dr. Clark stated that there was not a physician within 20 square miles in that section of the state.

Dr. Clark received his call from the Medical Defense Board of the War Department. On account of having a dependent family he enlisted with the Service Corps in place of the Medical Reserve Corps, and he is subject to calls anywhere in the States.

Dr. Clark came to Cloverport a little over two years ago from Mooleyville and originally from Louisville. He has established a good practice here and is well liked. He with Mrs. Clark and their children will leave shortly as Dr. Clark must report for duty in Rome by Nov. 15.

## SUPT. GALLOWAY MAKES AN ANNOUNCEMENT

To The Patrons And Pupils Of The Cloverport Public School.

Everyone knows that school has been suspended for the past month but it is likely that very few have really considered the full effect this might have on the year's work. A good part of the first semester has already been lost, while only a small part of the required work has been done. This will mean that both teacher and pupils will be compelled to work harder for the rest of this year than ever before. I have found most of the pupils ready to perform any duty asked of them to the best of their ability and I take this opportunity to urgently request that each pupil come to school when it opens again with all lessons prepared. If this is done we can begin our work without any delay, and delay means more work later on.

We are hoping that we can begin school next week, but notice will be given when the date is fixed. Remember that this is a time of preparedness; so be prepared. Sincerely, O. F. Galloway, Superintendent.

## CASPER GREGORY WOUNDED IN BATTLE

Writes To His Parents From A Base Hospital In France Doing Well.

Mr. and Mrs. Edward Gregory of this city have received a letter from their son, Casper Gregory saying he had been wounded and is now in a Base Hospital.

In a letter of Oct. 8, to his mother, Pvt. Gregory wrote:

"I have been 'over the top' twice and I know now all the horrors of the war. When the word comes to go over, the feeling you have of the terror soon leaves you as you see your fellow comrades fall, and vengeance spurs you on to clean out the Huns. And you don't feel like sparing any of them when after they have done all the devilment they could, then throw up their hands and yell, 'Comrades.'"

"It was on my second going over that I got wounded. We had a dirty machine gun nest to clean out, and we done it up quickly."

In another letter under date of Oct. 15, he writes, "I am now in a hospital doing all right and expect to be out soon. I have a nice bed to sleep in plenty to eat, and am well cared for. After weeks of hardships and loss of sleep, I think the quiet rest I am getting will do me good and I will soon be out."

It has only been five months since Pvt. Gregory left Cloverport for Camp Taylor. He with his brother, Norman Gregory were called at the same time and both went over together.

## CLOVERPORT TO HAVE THE MOVIES AGAIN

Mr. Oscar Holder Buys The American Theatre. Will Open Right Away.

Devotees of the movies will be elated to know that Cloverport is to have its moving picture show reopened in the near future. Mr. Oscar Holder, who for a number of years has been in the movie business in different cities in the States, has returned to this, his former home, and purchased the American Theatre from Mr. Peyton Scott.

Mr. Holder announces that he is going to make several improvements on the theatre and will show only the very best of films. As soon as the influenza ban is lifted he will reopen the theatre.

In addition to running a picture show Mr. Holder has bought the grocery business on Hall's corner in the West end of the city, and will stand as chief sponsor for that concern, which will be known as the Cow Heel Grocery Company.

Mr. Holder came here from Louisville and he, with Mrs. Holder, are staying with Mrs. Holder's mother, Mrs. Thomas Bohler and Mr. Bohler.

### Miss Conniff In France.

Irvington, Nov. 4. (Special)—Miss Margaret Conniff who sailed from Quebec has landed safe in France according to a message received here by her mother, Mrs. Adele Conniff. Miss Conniff is working overseas in the capacity of a Red Cross Secretary. Her sister Miss Nell Conniff who is a Red Cross nurse and brother Lieut. Wm. Conniff are also in France.

### Good Roads Meeting

In Owensboro.

The annual meeting of the Kentucky Highway Engineer's Association, formerly the County Road Engineers' Association of Kentucky, will be held at Owensboro, on Nov. 12, 13, 14, and 15.

The meetings have formerly been held in February, but the officers of the Association decided to change on account of weather conditions, and this meeting is to be held out of doors giving concrete demonstrations of road and bridge building.

Members of the Association are requested to bring as many friends of Good Roads to the meeting as possible.

He is the first Chinese to receive a commission in the United States army. Before enlisting in the army Mr. Chew was a junior at the University of California.

## GEN. GROSS WILL CONSTRUED

Held: That Under Its Terms Wife Received Fee Simple Estate In Property.

Hardinsburg, Nov. 4. (Special)—The heirs of Stephen Gross, brother of Gen. A. J. Gross, sometime ago filed a suit against Mrs. Josephine Pumphrey, alleging that Gen. Gross' wife, Mrs. Sallie Gross, deceased had only a life estate in the farm, and that it now belongs to the heirs of Stephen Gross and Mrs. Sallie Pumphrey DeHaven. This suit was predicated upon the theory that a request made by Gen. Gross in a codicil to his will, wherein he requested his wife, if she saw fit to leave one-half of whatever property was left to Sallie Pumphrey DeHaven and the remainder to Stephen Gross, his brother, only gave Sallie Gross a life estate in his property. The court in construing the will, held that the above language did not effect the fee simple estate that Gen. Gross invested in his wife. This means that Mrs. Josephine Pumphrey owns said farm as Mrs. Gross will be to her. Mrs. Sallie Pumphrey refused to be a party plaintiff to this action.

Aud. Higdon and Kincheloe of Owensboro and Hardinsburg, represented Stephen Gross heirs, and Claude Mercer represented Mrs. Josephine Pumphrey.

# No Mystery in Meat

Some things are so simple that they have to be explained again and again. When things are obvious, people keep looking for mysteries behind them.

So it is with the packing business. The mere size of Swift & Company confuses many. Because their imaginations are not geared up to scale, they believe there must be magic in it somewhere—some weird power.

Swift & Company is just like any other manufacturing business run by human beings like yourself; it takes in raw material on the one hand and turns out a finished product on the other.

Swift & Company keeps down the "spread," or the expense absorbed between raw and finished material, to as low a figure as possible. (If it didn't it would be put out of business by others who do.)

How much Swift & Company pays for the raw material, and how much it gets for the finished product, depends upon conditions which Swift & Company does not control.

It depends entirely upon how much people want the finished product, and how much raw material there is available to make it from.

The profits of Swift & Company amount to less than one cent per pound on all meats and by-products—less than one-fourth of a cent on beef.

Swift & Company, U.S.A.

## WITH THE HOME BOYS IN SERVICE

Has Been "Over The Top." Pvt. Virgil L. Powers who is the son of Mr. Joe Powers of Holt, Ky., and a volunteer in Uncle Sam's service, has had fulfilled the one desire in every soldier's life, to go "over the top." Pvt. Powers addresses this letter to two of his girl friends, Misses Claudia and Phronia Woosley of Webster, Ky.

My Dear Misses Phrona and Claudia: Knowing you would would be interested in hearing from an old friend away off in the land where they have guns to wake you for breakfast instead of a Big Ben alarm clock, I am sending you the following epistle, which with the aid of an expert on handwriting you will doubtless be able to decipher.

Possibly I should have stated in the opening stanza that I am still all in one piece and able to hop around without the aid of a crutch or a wheel chair, but for just how long I shall remain intact is hard to state.

There's a fellow here in the next billet who is trying to sleep with an effort extraordinary on a beautiful sofa for a bed, and complaining because his feet stretch down on the wood-work of which it is constructed. Thinks he will turn around and try his head on the hard part and put his feet on the sofa part as a man must favor his feet in this man's army because he often has to bid them "do their duty." Anyhow his foot has gone to sleep now and he doesn't want to wake it up to move his head. Can you beat that for sympathy and consideration?

To-morrow night perhaps this chap will have old Mother Earth about two feet deep for a bed and won't even think of asking for the time, never mind a soft spot for his feet.

His name is Russell and he can rustle up a couch most anywhere, providing there's no shells around. But if there is you could play cards on his coat tail he goes so fast, not even stopping for breath. Why he passes shells like as if they were snails, not even stopping to salute them, but of he sees a nickle hanging around without an armed guard, he'd stop and collect it under heavy fire.

Well, bye-bye girls, write me soon. Sincerely your friend, Pvt. Virgil L. Powers, American Exped Force, France, A. P. O. No. 754.

Lauds the Y. M. C. A. and Red Cross Mrs. Ida Nottingham of Lodiburg, has had the letter following from her nephew, Herbert O. Dutschke who is in the C. S. Navy Training Station, Mrs. Nottingham is a devotee of the Red Cross work and her nephew is

unatting in his praises of the good the Red Cross and Y. M. C. A., do for the soldiers.

Dear Aunt: As I have not written to you since I came back here, I will try and pen you a few lines. How are you and grandmother now? Hope you are both well and having the best of health.

I would have written sooner, but I had an attack of the Spanish fluenza, and was in the hospital two weeks with it. And I'll tell you who have never had it, it is nothing funny. There were over 20.0 cases here at this camp and over 150 deaths. The hospitals had all they could take care of too. There is where the Red Cross came in fine, and while I was in the hospital I thought of the great work which they were doing and to think you are working so hard for the Red Cross.

I was glad I had a near relative who was interested in the work. I tell you the Y. M. C. A., was a great help too in taking care of things here when the disease was at its worst. The Y. M. C. A. is as a father and the R. C. a mother to the boys in camp. How are you getting along with your Red Cross work now? Hope you are still on the job as ever. How is grandma now? Does she still knit as much as ever?

I have transferred to the Blue Jacket Guard since I came back in August. I sure would enjoy another trip home now. Think I will try for another furlough. Xmas.

Well, as I can't think of much to write I will close. Love to all. Your nephew, Herbert O. Dutschke, U. S. N. Training Station, B. J. G. 3rd Co., Newport, R. I.

### Pvt. Norman Gregory Is Out Of The Hospital.

This letter comes from a Cloverport boy, Norman S. Gregory, son of Mr. and Mrs. Ed. Gregory and a sister of Mrs. H. Willis Snyder of Bloomfield whose husband is also in France. Soon after Pvt. Gregory reached France he was detained in a Base Hospital on account of his eyes and it was there he met up with several Kentucky nurses and doctors who were in the Barrow Unit.

Dear Sister: I received your letter a few days ago, before I left the hospital, and sure was glad to get it for it is the only letter I have received since I left Camp Custer. I have not heard from Casper yet but think I will get all of my mail soon, at least I hope so for I'm getting pretty anxious to hear from home.

I don't know where Casper is but (continued on page 7)

## GO IN SWIMMING UNDER BOGHE FIRE

Clergyman Tells Story of the Yankees' Reckless Disregard for Danger.

A new story of the American fighting man's reckless disregard for danger, which it is one of the greatest problems of their officers to curb, was brought to Paris by Wilbur M. Wilson, a Baptist clergyman from Colorado, who went all the way from Chateau-Thierry to Fismes with a Pennsylvania regiment in the drive which began in July.

"With my own eyes," said Mr. Wilson, "I have seen American boys steal out from the trenches to a frog pond in No Man's Land, calmly remove their uniforms and dive into the cool waters with German snipers not a hundred yards away in their trenches. The American boy appears to be absolutely unafraid. The greater the number of casualties in his own unit the greater is his resolve to make the Germans pay the price. His morale increases noticeably every time a comrade falls with German bullets in his body.

Mr. Wilson was in the front lines for two months, serving in the uniform of the Y. M. C. A. Many times, he says, he drove his truck ahead of the field kitchens and furnished hot drinks, smokes and sweets to men who had had nothing to eat for two days except their iron rations. Francis B. Sayre, President Wilson's son-in-law, was with him for two days north of Chateau-Thierry. He is on his way back to America to aid in the united war work campaign in November, when a drive for \$170,500,000 will be made to carry on the work in which the "Y," the Y. W. C. A., the Salvation Army, National Catholic War council, Knights of Columbus, Jewish Welfare board, the American Library association and the war camp community service are co-operating.

### Improving Farm Kitchens

County tours are being utilized to raise the efficiency and comfort of kitchens of the country. In Vanderburg county, Ind., a string of motor cars one-half mile long, carrying 150 people, visited six homes on one tour. A kitchen planned scientifically was used as a model by the home demonstration agent to compare with others less convenient. Suggestions were made as to how the inefficient kind might be readjusted or changed, with the expenditure of a little money, to become comfortable workroom for the housewife.

### Epidemic Continues To Cut Coal Production.

Influenza continues to affect unfavorably the production of coal in many of the important producing districts of the country according to reports made to James B. Neale, Director of Production, U. S. Fuel Administration. Instead of following a continuous course, taking one district after another, the disease has appeared simultaneously in fields as far apart as Alabama, Pennsylvania and New Mexico.

In the Pittsburg district, for example, the Pittsburg Coal Company is short more than 14,000 men from this cause, indicating a loss of more than 10,000 tons in output. In Westmoreland county there were approximately 2000 miners idle through illness. This means a loss of about 10,000 tons a day of highly essential gas coal.

In the New River and Winding Gulf districts of West Virginia, Production Manager E. E. White reports a loss of 32,916 tons for the week ended October 19, due to the fact that both the mines and the railroads are short of workers. As many as ninety men from one mine have been ill at one time, Mr. White reports. George T. Brown, Production Manager in New Mexico, reports that for four weeks that mining districts has been seriously affected.

Judge H. C. Selheimer, Production Manager in Alabama, says that many mines there have been closed while others were obliged to work on short time. The result was noted in a production of 323,310 tons for the week ended October 19, or 59,336 tons less than for the week preceding.

## RED CROSS SOCIETY

Each American soldier Overseas has received from his commanding officer one Christmas Parcel Label, which he will mail home to a person planning to send him a Christmas remembrance. Each soldier is to receive but one "Parcel Label," and only one package can be sent to each soldier. No duplicates can be issued.

The party receiving the label from the soldier Overseas should present it to the County Red Cross Chapter, Branch or Auxiliary, and secure a carton. These cartons should reach the chapter from the Lake Division Headquarters not later than November 1st, and the packages must be in the Post Office not later than November 20th.

In this carton is to be placed the Christmas remembrance or remembrances for the soldier. When the carton is filled with the articles and wrapped, it must not exceed in weight three pounds. The sender should take this carton, together with the Overseas label, to the Red Cross Chapter, Branch or Auxiliary, to be inspected, wrapped and weighed and left with the Chapter, Branch or Auxiliary, for mailing, the sender paying the postage. Parcel Post rate, to Hoboken, N. J.

No carton is to contain for shipment Overseas the following:

### VOLUNTEERS AS NURSE

Miss Cecelia Hagman, daughter of Mr. and Mrs. Victor Hagman, is at home with her parents after completing a three year course in nursing at the St. Mary and Elizabeth Hospital in Louisville.

Before leaving Louisville, Miss Hagman volunteered her services in the Army Nurses Reserve and expressed herself as willing to go anywhere duty called.—Hancock Clarion

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 50c and \$1.00 a bottle at the drug store.

- (1) Spirituous, vinous, malted, fermented or other intoxicating liquors.
- (2) Poison and all articles containing poison.
- (3) Explosives of all kinds.
- (4) Inflammable materials, including friction matches.
- (5) Infernal machines and mechanical, chemical or other devices or compositions which may ignite or explode. (Under this classification would come cigarette lighters.)
- (6) Liquids or articles not packed in accordance with the requirements of the postal laws and regulations.
- (7) All articles which may kill or in any way hurt, harm or injure another, or damage or deface or otherwise injure mail or other property.

NOTE—Nothing should go in a Christmas package which will not keep fresh from the time of packing until Christmas. No liquids, no soft candies, nothing packed in glass will be accepted.

NOTE—Any message or note placed in the package will be removed by the Red Cross inspection committee.

### Other Christmas Packages To

**Soldiers And Sailors.** Although the following packages do not go forward through the American Red Cross, the information may be useful in answering inquiries that will doubtless come to you.

### Christmas Packages For The Navy.

Briefly stated, the regulations of the Navy for Christmas packages to be sent to sailors in home waters or abroad are:

(a) Packages to sailors forwarded by parcel post must comply with the postal regulations and should be enclosed in substantial boxes with hinged or screw top to facilitate opening and inspecting.

(b) All boxes shipped by express are limited to twenty pounds in weight, should measure not more than two cubic feet in volume, be of wood, well strapped and have a hinged or screw top to facilitate opening and inspecting.

(c) All mail matter should be addressed as now prescribed by the postal regulations. All express packages should be forwarded in care of Supply Officer, Fleet Supply Base, Twenty-ninth street and Third avenue, South Brooklyn, N. Y. (Of course, the man's name and rank should be on the package.)

(d) No perishable food product other than those enclosed in cans or glass jars should be packed in parcel post or express shipments.

(e) All packages must be plainly marked with the name and address of the sender, together with a notation indicating the nature of the contents, as "Christmas box" or "Christmas present."

(f) The supply officer at New York will cause each express package to be opened and carefully examined to see that nothing of an explosive or other dangerous character is forwarded.

The shipment of Christmas packages for U. S. Navy vessels abroad should be made so as to reach New York as early as possible, and not later than November 15th.

### THE RED CROSS

#### BUILDS A VILLAGE

One hundred families will soon be occupying as many four-room cottages in a village which the American Red Cross is building on a picturesque hillside just outside Le Havre, according to reports just received.

Every effort is being made to have the village, when complete, resemble a bit of Belgium transplanted to France. There will be the paved streets, electric lights and an up-to-date water-main system.

The village's population will be selected from the poorest of the refugees. No family with less than four children will be given a cottage.

Each cottage will have a garden and will rent for six dollars a month. Tenants who cannot pay for their cottages will be taken care of by some charitable organization, but everyone who gets a cottage will be expected to work.

The rent from the cottages, it has been figured, will pay the expense of running the town.

There will be two Belgian schools with Belgian teachers; a Belgian priest, Belgian officials and one of the cooperative stores so popular in Belgium.

The cottages are portable, and after the war ends they can be shipped to Belgium and set up in the native towns of the people occupying them.

### FOR SALE

### Teachers Will Be Paid For Enforced Idleness.

Frankfort, Ky., Oct. 31.—V. O. Gilbert, state superintendent of schools stated today that all teachers whose schools had been closed on account of the influenza would be paid for the time that the school was closed unless they had made a contract to the contrary. A similar statement was made by Superintendent Gilbert a week ago, but it has not been understood by the teachers, and hundreds of letters are piling up on the desk of the superintendent asking for information. He has obtained a written opinion from the attorney general that Section 4418 of the Kentucky statutes apply, and that in every instance unless a teacher has made a contract to the contrary, the salary will be paid for the time that the school is closed on account of the influenza.

### COMMISSIONER'S SALE

OUTDO MASTER IN BARBARITY

Austrians Repeat Horrors of Belgium in North Italy.

TOLD BY ESCAPED PRISONER

Forced to Endure Such Hardships That Any Risk to Effect His Escape Seemed Little Beside Life He Led—Brings Letters That Tell of Anguish of People in Territory Occupied by Austrians.

(Special Correspondence of the Italian-American News Bureau, Chicago.)

Rome.—A new cry of anguish rises from the side of the Blavie held by the Austrian arms. It reaches Rome through one of our soldiers, Ferdinando Caldo, a bersagliere, from Reggio Calabria. He was captured in November last by the Austrians and forced to do such hard work and endure such privations that any risk to effect his escape seemed little beside the life he led. He resolved to escape. Twice he attempted it, and the second time succeeded.

After several months of exciting adventures he crossed the Cadore Alps country. He was helped by the inhabitants, who took him in and hid him, or fed him. Several of them entrusted him with letters to friends or relatives in Italy. These letters have been photographed for a pamphlet issued by the army and are a further testimony to Austrian barbarities. One of the letters says:

"Dear Friends: I shall try to tell you briefly of the misery of the past. First of all the barbarian Austrians, as soon as they arrived here, entered the houses and carried everything off. What they could not take they destroyed. What wine they could not drink they poured in the gutters and left us poor citizens without wine and without bread. They force us to work without pay or food, under the spur of a soldier's bayonet.

Armed Men Break In Doors.

"At night they break down the doors to add terror to the misery of women and girls. Often I was obliged to fight for my life. Here in these provinces death gains on us every day, because there is nothing left to eat. Yes, dear friends, if you do not send us something we shall soon be dead."

Inside the envelope was written: "If you go to the front, do not be taken prisoner, for it will mean your death."

"I have seen persons die from hunger, even here."

Beneath the address were the words:

"If you do not find the person addressed, read the letter to the people."

The letters repeat the same desperate prayer, the same cry of anguish.

"Up to now I live," Pierina writes her husband, who is a corporal 7th Alpini, 60a company. "If Italy does not come to our rescue, we shall die from hunger. We have been living on roots for a month."

Maria — writes her son Pietro: "We are left under the dome of the sky without a shelter—with nothing. Here one wishes for death as a relief every moment."

A mother writes to Signora Margherita Gerlo, 38 via Trieste, Brescia, asking for something to eat, because "My children are dying of hunger."

As insistent as a refrain, every letter repeats the message of Victoria — to Sergeant Antonio — of the 240th Infantry:

"If the Italians do not come to deliver us we shall all die from hunger."

In delivering the letters the bersagliere Caldo remarked:

"At the time I came away the resources of the country were at the lowest ebb, owing to the repeated requisitions of the Austrians. The people lived inside their houses to avoid contact with or insult and injury at the hands of an unbridled, rough and ignorant soldiery. This, however, did not prevent thieving and outrages against women by armed men. Blows were given freely to whoever did not obey quickly."

Mountaineers Burned Out.

"Whole woods were burned by the Austrians to compel the dwellers in lonely mountain cabins to flee. Their sufferings, however, did not wear out the morale of the people's resistance. Their patriotism was sharpened and their desire for freedom quickened."

"Their charity in helping our prisoners escaping from Austria is admirable. They hide them, lead them over mountain paths at night, known only to persons born and reared among them, and through a thousand perils, to our lines."

"We to deserters. If they find one, and they examine every soldier closely to find out, they drive him out of their houses like a dog, and leave him to help himself as best he may."

IGNORE NATIONAL ANTHEM

Six Months in Jail is Punishment for Two Brothers.

B. Fay Bullis and Earle Bullis, brothers, who lived in Amsterdam, are behind the bars in the jail at Troy, N. Y. They will stay there for the next six months because they refused to stand when a band played the national anthem. Their excuse was that they were tired from their day's work and "stubborn" because persons near them insisted they stand.

REDUCING MOUSE AND RAT DAMAGE

When Food is Abundant It is Impossible to Clear Premises of All Rodents.

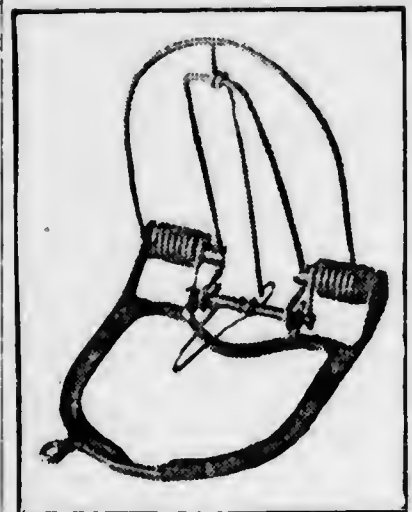

GUILLOTINE TRAP IN FAVOR

Other Devices More Simple in Construction Are Preferable—Vienna Sausage or Fried Bacon Makes Excellent Bait.

(Prepared by the United States Department of Agriculture.)

Owing to their cunning, it is not always easy to clear rats from premises by trapping; if food is abundant, it is impossible. A few adults refuse to enter the most innocent-looking trap. And yet trapping, if persistently followed, is one of the most effective ways of destroying the animals. Guillotine Trap.

For general use the improved modern traps with a wire fall released by a baited trigger and driven by a coiled spring have marked advantages over the old forms and many of them may be used at the same time. These

Guillotine Trap Made Entirely of Metal.

traps, sometimes called "guillotine" traps, are of many designs, but the more simply constructed are preferable. Probably those made entirely of metal are the best, as they are more durable. Traps with tin or sheet-iron metal bases are not recommended.

Guillotine traps of the type shown should be baited with small pieces of Vienna sausage (Wienerwurst) or fried bacon. A small section of an ear of corn is an excellent bait if other grain is not present. The trigger wire should be bent inward to bring the bait into proper position for the fall to strike the rat in the neck.

Other Excellent Baits.

Other excellent baits for rats and mice are oatmeal, toasted cheese, toasted bread (buttered), fish, fish offal, fresh liver, raw meat, pine nuts, apples, carrots and corn, and sunflower, squash or pumpkin seeds. Broken fresh eggs are good bait at all seasons and ripe tomatoes, green cucumbers and other fresh vegetables are very tempting to the animals in winter. When seed, grain or meat is used with a guillotine trap, it is put on the trigger plate or the trigger wire may be bent outward and the bait placed directly under it.

Oatmeal (rolled oats) is recommended as a bait for guillotine traps made with wooden base and trigger plate. These traps are especially convenient to use on ledges or other narrow rat runs or at the openings of rat burrows. They are often used without bait.

A common mistake in trapping for rats or mice is to use only one or two traps when dozens are needed. For a large establishment hundreds of traps may be used to advantage and a dozen is none too many for an ordinary barn or dwelling infested with rats. House mice are less suspicious than rats and are much more easily trapped.

Farmer Pictured As Man Who Backs Up Soldier.

The man behind the Plow is the man behind the man behind the Gun.

National Campaign for More Food Production Poster Used By Department Of Agriculture  
He's Man Behind The Man Behind The Gun.

The man behind the plow, Department of Agriculture officials believe, is the man behind the man behind the gun, and the idea has been embodied in a striking poster that is soon to be used throughout the country in hammering home the importance of the American farmer's big war job.

Edward Penfield, poster artist of New York, painted the picture, which shows a plowman working in the furrows to produce food for the men in the trenches. Against a smoky background are seen the silhouetted figures of soldiers in battle.

#### Farmers Not To Fail.

Food production problems are described as growing more acute with the progress of the war, the increasing demands for food, the calling of more men to the army, and other results of America straining every nerve toward one objective. But Department of Agriculture officials are assured in every mail and from every section of the country that the farmers are not going to fail in their war task. Farmers have gone over the top for the period of the war. The new poster is intended to impress upon people of the cities and towns the great importance of accommodating agriculture in its requirements of labor, finance and marketing.

#### Farmers Place Recognized.

The importance of the farmer in the organization of American resources to win the war was expressed by the Secretary of Agriculture in his recent appeal "to the patriots on the farms" to go "over the top" this fall for a great harvest of wheat in 1919. In this appeal the Secretary said:

"You have occupied and do occupy the first line trenches of the food army. You have to fight difficulties too. I am not unmindful of these. In the Department of Agriculture we consider them daily, and daily we give our best efforts to help you meet them. You know of the difficulties in your community, but I know of them in many communities of many States, and so seriously do they impress me that I might almost consider them insurmountable had not American farmers last year, and again this year, revealed the true American fighting spirit and ability to meet serious situations. They will not let the war fail because of deficient food production."

"Let us sow liberally for a big harvest in 1919. It has been called the Liberty Wheat Harvest. We all hope it will be. But let us undertake the task with the determination that we

will sweat our blood for many more if need be before we yield one measure of our freedom to a Prussian domination. Let us fight in the furrows.

#### Use Farm Woodlands Wisely.

Farm woodlands are being drawn upon for large quantities of timber for war purposes. There is a big demand for logs of black walnut, white oak, hickory, spruce, black locust, yellow birch, yellow poplar, rock elm, ash, white cedar (in the Southern States); and also for the bark of chestnut, oak, and hemlock if near tannin-extract factories. Large, sound trees of these species should be cut and marketed for war purposes, and under no consideration used for cordwood except as their tops and branches may be utilized for this purpose.

Farm woodlands are also furnishing perhaps double the ordinary amount of wood for fuel. This increased demand may result in considerable and lasting damage to the woodlands unless precautions are taken. On the other hand, the cutting of cordwood affords each owner of woodland an opportunity to clear his land and put his timber in better condition. To accomplish this idea to keep in mind is to remove for cordwood the poorer, less valuable trees, leaving the better ones to stand. In removing the fuel wood the greatest precaution should be taken not to injure the more valuable trees or the young growth.

Briefly, the material which should be removed is as follows:

Sound sticks lying on the ground, including tops left in logging operations, and trees blown over by wind, crushed down by snow or otherwise toppled over; dead trees which are sound and still standing; trees which are diseased, or are so seriously injured by insects that they will probably die; and also trees which are especially subject to serious disease or insect attack; crooked trees which are crowding out straight ones; large old trees unsuitable for lumber, and having big tops which shade out numerous smaller trees growing beneath them; small trees which are overtopped and stunted by larger and better ones; trees of the less valuable kind which are crowding good trees of the more valuable kinds; trees which by some chance are growing on ground unsuited to them; slowly growing trees which are crowding out equally valuable kinds that grow faster; trees badly fire-scarred at the butt, which usually become rotten, and are among the first to be blown over by heavy winds.

The ideal trees for cordwood are those which range from 4 to about 10 inches in diameter. The yield of cordwood from trees smaller than 4 inches in diameter is very slight, and trees larger than 10 inches in diameter are usually more valuable for some other purpose unless they are defective.

#### Time To Overhaul Machinery.

The proper time for overhauling farming machines in during their period of inactivity and before the rush of spring work. If put off until needed, delay incident to getting repair parts promptly, press of other work, and the hazy recollection of the past season's difficulties may hinder the efficient prosecution of this work.

At the end of the season's work it is a plan well worth while to make out a schedule of needed repairs and adjustments for a particular machine and file it in a convenient place, so when opportunity arises the work may be taken up and prosecuted expeditiously. The machine itself represents capital invested. It should be housed properly and not left in a fence corner or other out of the way place for wooden parts to rot and metal parts to rust, which, even for short periods, may cause more deterioration than the season's use.

#### Food Instead Of Flowers.

A Virginia florist, according to the report of the home demonstration agent, planted tomatoes this year instead of flowers, so that he could help the food situation. He made arrangements through the home demonstration agent with one of the club girls to can the tomatoes on shares for the market.

"He also wants someone to make pickles for market on shares," says the report of the agent.

#### How To Grow Winter Greens.

In the milder portion of the country it is possible by the aid of a cold frame to grow lettuce, radishes, spinach, kale, and parsley throughout the winter. The cold frame may be any size from three feet by six feet—this being the size of the standard cold frame sash—to six feet by any multiple of three feet. A four-sash frame—that is one 6 by 12 feet—would be large enough to supply the average family with winter greens.

#### Ban on Pigeon Races.

Federal department of justice officials at Albany, N. Y., have placed a ban on carrier pigeon races, a favorite sport among local bird fanciers. All birds of this type are being made messenger-aviators for Uncle Sam or their wings must remain unspread, the pigeon race enthusiast was told.

## YANKEE DOWNS 11 BALLOONS

Boy of Nineteen Is Hero of the American Army.

### TAKES DESPERATE CHANCES

Volunteers for Most Perilous Air Work, Going Out on Stunts Astonishing to His Comrades, and Also Probably Astonishing to the Enemy—Eddie Rickenbacker, Former Auto Racer, Has Downed Seven.

The First army has its cap off to Frank Luke, who has brought down 11 enemy observation balloons and one plane within a week. Luke volunteered for probably the most perilous air work, going out on stunts astonishing to his comrades, and also probably astounding to the enemy, writes Frederick A. Smith in the Chicago Tribune.

I sought out this demigod of aviation who has become in a few days the American ace of aces in balloon destruction, and found him to be a boy of nineteen, whose blue eyes show ingenious surprise when he is asked about his exploits. His enterprises contribute to the fine record of American aviators in this offensive. Sixty-three Boche planes have been downed in a week, nine of which are already officially recorded, and 30 balloons.

#### Chicago Boy Downes One.

Thorne C. Taylor, son of Judge Taylor of Chicago, dropped one, adding to his already fine record. Eddie Rickenbacker, former auto racer, just out of the hospital after a mastoid operation, added three to his string, two of which are official, giving him seven Boche airmen to date.

When the offensive opened volunteers were asked for balloon attacks. Luke and Joseph F. Wehner of Everett, Mass., stepped forward, although they had only been pilots at the front for a few months. They started, but became separated; but each got a balloon. That means they went singly far across the foe's line and flew close to the ground under the fire of machine guns and aircraft guns, which, with "thumping onions," were filling the air with fire. The onions are balls of fire intended to ignite the plane.

It is said that Luke in the Marne campaign followed a Boche ace far into German territory and dropped him, but there was no chance to confirm this for the official record. That was his first blood, and he determined his next accomplishment should be made official. After dropping the balloon in flames Luke recrossed our lines, alighting near an American observation balloon and getting an immediate written statement from the observer, who saw the battle.

The next day Luke was accompanied by Wehner, who, falling behind and reaching the other side of the German front, was just in time to discover Luke sending down a balloon in flames unconscious of the fact that seven Hun planes were right on his tail. Wehner, rising, came down on the Boche nearest Luke, shooting down the Hun and saving his comrade. Wehner then crippled another Boche, both then escaping. Luke's plane was riddled, a bullet hitting under the seat back of him, damaging the tank and cutting a strut.

#### Attacks Anti-aircraft Guns.

Saturday Luke went out with Joe Dawson, getting another balloon, but he was plucked because the lug didn't burn, and descended almost to the ground, driving the anti-aircraft gunners away from their pieces.

Young Luke, who quit school in Phoenix, Ariz., to enter the war, causes Germany a loss of \$7,000 for each balloon dropped, in addition to valuable instruments and maps requiring months to make. On Monday evening Luke and Wehner announced that they would get three, the first at 7:15, the second at 7:30 and the third at 7:45. Observers near the front saw the three fall almost exactly on schedule. The daring flyers were forced to return after dark, but were guided by rockets and flares, and finally reached home, both wrecking their machines in alighting.

The Arizona boy one night on returning after bagging two more was forced to land far away and was picked up after walking some distance, suspected as a German in an American uniform. He proved his identity, but was forced to wait until morning before returning to his airframe.

Rickenbacker is a different style of battler. "He lies in the sun," often 20,000 feet high, attacking only when he has the advantage or some comrade beneath needs help. He always flies alone. On Saturday, northeast of Viguelles, Rickenbacker encountered four Boches who were pursuing American bombers back toward our lines. He maneuvered into the sun and came down on the rear German, then rising sharply or "zooming the German." He escaped to a safe altitude easily, as the downward swoop has such terrific speed it carries the plane up like a flash when the "zoom" starts.

#### Mayor Joins Union.

Mayor Ole Hanson of Seattle, Wash., is now a member of the Boilermakers', Iron Shipbuilders' and Helpers' union of that city. The Mayor has been working in the shipyards along with common laborers in order to aid in relieving the shortage of man power.

## 2,000 Tons Sugar Lost.

The Cuban steamship Chapparo, Capt. Cuvinoles, which sailed Thursday from Cardenas for this port with 2,000 tons of raw sugar, consigned to the Federal Sugar Refining Company was sunk ten miles off Barnegat at 10 o'clock Sunday night either by collision with a drifting German mine or by a torpedo.

The impression of the naval authorities is that a mine was responsible but the freighter's skipper is unable to say positively that this is true, although nobody aboard saw any signs of a submarine.

The Chapparo, formerly the British steamship Tinbow, went down in about five minutes. The sea was calm and the skipper and his crew of thirty launched two boats and made shore without mishap, one boat's crew of twelve, including the skipper, landing at Barnegat and the other, with eighteen landing at North Beach.

The sugar was valued at about \$210,000. The ship was of 1,303 gross tons and was owned in Havana.—New York Sun.

### BAD OMEN FOR GERMANY

United States Flag Still Waves Though Pole Is Shattered.

If you are one of those persons who have faith in signs, omens, predictions and so on, you will probably see a lucky omen in the effects of the brilliant flash of lightning that struck the immense flagpole on the New Orleans customs house recently. The flagstaff was shattered and forty or fifty large splinters were showered downward to the streets, but after the fireworks were over, as on another occasion made memorable by F. S. Key, "our flag was still there." In spite of the stroke Old Glory is still flying over the customs house.

### BRITISH EAT MOST CHEESE

More Than Half Europe's Output Goes to England.

Statisticians have figured out that England eats the larger part of Europe's output of cheese. Europe's output is 340,000,000 kilograms, and England consumes 180,000,000 kilograms of this amount. Next comes Holland, which takes 56,000,000; Switzerland takes 43,000,000; France, 31,000,000, and Germany 20,000,000 kilograms.

The only people on earth who eat no cheese are the Chinese.

#### Girls as Cow Testers.

## DRAMATIC REUNION OF FATHER AND SON

Remarkable Incident of the War Occurs in Y. M. C. A. Hut in London.

Engle hnt, in London was crowded as usual the other night when a grizzled veteran in the uniform of the Second London Scottish regiment made his way to the desk and asked the "Y" secretary in charge if there was any one from Boston in the building. Before he joined the colors Sgt. Maj. J. Ripple had lived in Boston, and he yearned for a sight of some one from the New England metropolis.

Over in one corner of the room two young men sat in earnest conversation. Both had been blinded on the Marne and one of them, George Arthur Sugden, had returned from a German prison camp after eight months to seek his cousin, Vincent Francis Ripple, a sergeant in the Thirty-first Canadian rifles, in which both had enlisted soon after the war broke out. By chance they had come together under the hospitable Y. M. C. A. roof and were busily engaged in having a reunion when the "Y" man shouted through a megaphone:

"Is there any one here from Boston? A veteran who hails from Boston wants to see some one from home." "Here! Here!" came from the corner and two slightest pairs of eyes turned toward the voice. And as the cousins rose to their feet and haltingly started through the lane made as the crowd stepped back, Sergeant Major Ripple pushed toward them. There was an expression of hope in his face that the casual observer would have said could not have been inspired merely by a desire to see some one from Boston.

Suddenly that expression of hope was changed. Sergeant Major Ripple had been looking everywhere for his son and his nephew.

"My son!" he cried, in a voice that shook with emotion. "Vincent! And George!"

And in a moment his great arms were crushing them to him. There were cheers, and not a few tears, as room was made in the corner for the three.

**"Poisoned With Kultur."**

One of the tragedies of the war will be the awaking of the German people to the hideous fraud in the "waterland" fetish. What anguish must follow the discovery that the kultur which put millions of Germans under the sod of France and Belgium was but an opiate, politically and economically!

"Lena scrubs. But she is able to buy Liberty Bonds, because her scrubbing is done in Chicago. All Lena's one hundred pounds was shaking with sobs when her employer asked her what troubled her."

"Both my brothers have been killed in the German army," she replied. "One was safe in Stockholm and went home to fight for the fatherland. They didn't know—they didn't know! Seven years ago I worked in Strassburg for a rich family. There were fourteen rooms. I waxed every floor twice a week. Every morning I blacked nine pair of shoes. I did all the housework even the washing. At three o'clock I must serve coffee. From 4 to 6 I must do fancy work for the lady. From 7 to 9 I served dinner. After that I could go to bed if some of the nine didn't have something else for me to do."

But they were aristocrats. I could not complain. It was my place. Oh, my poor brothers! They died for that. They thought it was right. The Kaiser poisoned them to death with his kultur."

Lena is German—the Germany of the not far distant future.—Chicago Herald and Examiner.

**HIS HOME TO Y. W. C. A.**

New York, Oct. 30.—John D. Rockefeller, Sr., has turned the three upper floors of his city home into dormitories for women taking the special courses in recreational work to be started here on November 29, by the War Work Council of the Young Women's Christian Association, according to an announcement tonight.

The house has been closed for several years, and Mr. Rockefeller was persuaded to donate the use of the rooms by his daughter-in-law, who as chairman of the War Work Council, is interested in training women to provide recreation for girls engaged in war industries. The rooms, decorated with carved wood inlaid with ivory, will accommodate fifty students.

The Red Cross, which last year was given the use of the basement and first floor, will retain these quarters.

guess he is somewhere in France, and Willis too. I guess there isn't much chance of getting to see them. Now Sis, don't worry about us for this is a pretty good place and I don't think we will be here long.

I sure had a good time after I got out of the hospital, I was there three weeks before I came here. The girls there sure believe in showing the Yanks a good time and you don't need any money if you can find a girl. They all work and won't let you pay for anything and keep you well supplied with cigarettes.

There isn't many girls around here and what there is I can't talk to them for I can't savvy this lingo.

I hope you are getting along fine with your school. Go home as often as you can for I know mother worries considerably about all three of us boys. I am getting along fine but my eyes are slightly on the bum yet and am afraid they will never be as good as they were before.

I have been transferred into the Signal Corps but would rather have stayed in the Infantry with Casper. I could have stayed with the Hospital Unit as clerk in the headquarters. I sure wish I had for I like there better than here. It was just like home there for the Unit was made up at Lexington, Ky., and most of the nurses and surgeons were from Kentucky and knew a good many people that I knew on the road.

Let me know if Willis is over here and send me his address so I can write to him, and I will try to see him if he is anyways close. Write soon. Lots of love. Pvt. Norman S. Gregory, Co. A, 116 Field Bn. A. E. F.

**Says Its Fine.**

Another Breckinridge county boy who has been wounded lately is Private H. N. Williams, of West View, son of Mr. and Mrs. E. M. Williams.

Private Williams was wounded on September the 29th, while participating in his third battle. He writes that it is great sport to shoot at the Boches who come up out of their beds like rabbits. In this last battle, Private Williams says the Americans captured 4,000 Germans and 40 big guns.

In writing to his parents he goes on to say:

"A few lines this morning to let you all hear from me. Am getting along nicely. I have been wounded. I got wounded Sunday morning, September 29th. I am not scared at all. Got shot in the right leg just above the knee. Don't worry about me, as I will soon be all right."

"I am over in England in a hospital. Having a good time—it certainly is a nice place."

"I have been in three battles, but Sunday was the hardest one yet. We captured 4,000 Germans and 40 big guns. I think it soon will be over."

"It is certainly fine sport to shoot at the Boches like rabbits coming out to their beds, hollering, 'hell, hell, hell.'"

"Well, as I am in bed, I can't write much, so I will close."

"From your son,

H. N. Williams.

**In Flu Medical Corps.**

This interesting letter comes from Joseph Lamar O'Bryan who is doing a noble part in the war in the Medical Corps in France. His letter was directed to Mr. Babbage, Editor of The Breckinridge News, and it is printed with the hope that it will fulfill its mission as stated in the opening paragraph by the writer.

Mr. Babbage, Dear Sir: If you will publish these lines it will help me to communicate with some of my friends and relations of Meade and Breckinridge counties hence enable me to give them an idea of my whereabouts, and the kind of life I am seeing at the front.

I would like to tell about our voyage coming over, and the route which we took; but will wait until later, as I want to be sure and not disclose any information to Fritz.

We arrived in France Sept. 6th and after stopping at various camps

and traveling different ways, we arrived at a sector of the front which is held by the Americans.

I took in all the sights coming along with both eyes and my mouth open, and the different types of soldiers afforded me quite a bit of interest. Have already seen English, Canadian, French, Algerians, Italian and Austrian soldiers; as well as some of the German, Austrian and Turk prisoners.

Some of the quaint old-fashioned methods of transportation and conveyance, have also been a source of amusement to me; for instance the big high wheel horse carts; and there are a few dog carts yet in use. I also notice quite a number of the old-fashioned long shaped canal boats, pulled by horses; and last but not least, quite a number of the most modern type of American steam engine.

There were many fields of grapes as we came along, and among other curious things I observed some English walnuts and chestnuts.

All the Allied troops are working with determination toward a victorious peace; and they all seem to get along well wherever thrown together especially so with the French and Americans, as we find the French very affable and their ideas in harmony with our own. There has been considerable activity all along the line lately and we have been making excellent gains, as you will no doubt see. Have seen quite a number of nerve racking sights already such as aviators and observation balloons brought down etc., but will not mention more about such incidents now as such things (after all) are only commonplace in this war.

I am in the Medical Corps, and am thankful that I have been able to render some good service in that department. I think my chances are good and I hope to live to see you all again. Regards to all and I will change records. Joseph Lamar O'Bryan, Ambulance Co., 129, 108 Sanitary Train, 33rd Division, A. E. F.

Rev. J. H. Blackburn is in receipt of the following letter from a Breckinridge county boy, Herbert O. Dutschke, who is stationed at Newport, R. I.

Rev. H. J. Blackburn, Battletown, Ky.,

My Dear Pastor and Friend:

Will try and write you a few lines once more to let you know how I am getting along. I have had the "flu" and was in the hospital two weeks, and I tell you it surely like to have done for me. I have been out a week, but I can feel the effects of it yet. It surely is bad. It was a terrible sight to see so many sick at one time. Nearly three thousand in the hospital at one time. It is not so bad now.

All I could do was to pray, and I tell you I never felt the need of my Lord as I did at that time. Surely God was good to raise me up again. He heard my prayers, for I prayed believing that He would answer, and I felt that all the time He would. I believe that he has work for me to do, and I am going to do it when I get back home. I feel that He has called me as I have often told you, and surely it is my place to answer the call. May God bless you for what you have done for me.

When have you seen my folks? Go to see my dear old father and mother as often as you can. I know that you will comfort and cheer them up.

Oh, how I would love to be at Raymond next third Sunday and hear you preach. Tell all the Sunday school pupils and the B. Y. P. U. that I am praying for them all and for them to pray for me.

I have been transferred to the blue jackets and will be here for four or five months yet. I am in training for some office and I hope to make good. I hardly know what I will be. But God being my helper, I am going to pull through.

Tell all my friends "hello" for me. Your friend and brother,

Herbert O. Dutschke.

Newport, R. I.

Ollie Clark Writes From France.

Ollie Clark is another of Cloverport boys who landed in France with the 84th Division. He is in the Field Artillery and machinist. His mother is Mrs. Wm. Clark to whom this letter was addressed.

Dear Mother: Will answer your sweet letter which I received last night. I received nine letters last night and the one I admired most

was the one from my mother. But mother I am proud to say that I am not in need of any money and I am proud to know that I have a dear mother and father to send me money or any thing else that I should happen to need. However let me say that I am in a fine condition, have plenty of money, plenty of warm clothing, lots of blankets, a good place to sleep and lots to eat so please don't worry about this boy for he is well satisfied, and coming back to his old home in Cloverport and I don't believe it will be so awful long.

Tell Mrs. Willis that I started her a letter a few days ago and if she has not gotten it by the time you get this I will write her another one, but think she will get that one.

I got a letter from aunt Ora, one from Allie, one from you, one from Edna, one from Lula, and I got two letters from different girls in Ohio, one in New Jersey and one from a girl in Louisville. Now won't I have a time trying to answer all of those? Ha, ha! I have an idea that some of them will not be answered real soon. I have answered two already, one to aunt Ora and the one to you I may write another one or two this afternoon before taps.

Have any of the boys left Cloverport since I was there? If so, who are they? I saw John Hall yesterday but did not get to talk to him. I pass right where he stays every morning, but have not seen him in the mornings yet. I always see him in the afternoon at drill. Have not seen Bill Mattingly but once.

A new bunch came in this morning and I think Oscar Dawson was with them. He is in the Infantry and I don't guess I will get to see him very often. Tell everybody I send my best regards. And my love home. Your only soldier boy, Mech. Ollie Clark, Battery C, 336 F. A., A. P. O. 905 Amer. E. F., France.

## FOURTH LIBERTY LOAN OVER SUBSCRIBED

Final Report From Treasury  
Shows An Oversubscrip-  
tion Of \$866,000,000

Washington, Nov. 1.—The Fourth Liberty Loan was oversubscribed by more than \$866,000,000. Final reports announced today by the Treasury show subscriptions of \$866,416,300.

All Federal Reserve districts oversubscribed, the Boston district reaching 126 per cent of its quota, and standing first in the percentage column. Richmond made 123 per cent, and Philadelphia 119.

It is estimated that 21,000,000 per sons bought bonds.

Other districts percentages were:

Cleveland, 116; Minneapolis, 114; St. Louis, 113; Atlanta, 112; Dallas, 111.69; New York, 111.11; Chicago, 110; Kansas City, 109; San Francisco, 105.

### Yanks' Endurance

Marvel Of London.

London, Oct. 4.—Astonishing stories are reaching this country concerning the American soldier's power of endurance. There is, for instance, the case of one young officer who lived for eight days in a shell hole under continual fire from machine guns and snipers' rifles, and with gas containing water as his only nourishment. And there is a certain American brigade which recently participated in nine consecutive days fighting with only three really solid meals during the whole period. There was no failure of the commissariat, be it stated, but the Yanks, in order to fight the lighter left everything behind them, rations included, except their rifles, bayonets and ammunition.

This brigade, by the way, is composed largely of student volunteers from Michigan and Wisconsin. They have a college marching song of their own, whereof one of the couplets declares:

"The Kaiser has no chance.  
We'll shoot him in the pants!"  
It is sung to a patchwork melody of students songs and ragtime airs, with an allusion or two to the "Marching Song of the New York Sun."

### Sugar Allowance

Now Three Pounds.

Washington, Oct. 31.—The sugar allowance of two pounds monthly a person for householders was increased to three pounds monthly today by Food Administrator Hoover, effective tomorrow. The sugar regulations also are revised to permit the purchase of the entire month's supply for a family at one time.

This relaxation of the restrictions placed on the use of sugar four months ago was made possible. Mr. Hoover's statement said, through the rapid manufacture of the beet sugar crop in the West, the new cane crop in the South, reductions of consumption in manufacturing, freer transportation conditions, and patriotic conservation by the public.

### France and Italy Suffering

From Influenza.

London, Oct. 25.—Great Britain, France and Italy are still suffering from influenza, England being particularly hard hit. All medical reports show the epidemic is striking harder and that it is more widespread, with the death rate rapidly increasing. It is generally not alarming, although in some sections twice the normal number of undertakers are unable to keep up with the demands for their services.

Influenza deaths in the London district last week were 371, against an average of 40 for the three preceding weeks. Most of the victims in England are between the ages of 23 and 35.

Insufficient meat supplies are blamed by some medical authorities, the sufferers not having sufficient resistance to combat the disease. Women are suffering most as a result of giving up their meat rations to the men at the fighting front.

### SHEEP TO CLEAN OUT WEEDS

Common Practice to Turn Flock Into Corn After It Is Well Tasseled—  
Eat Lower Leaves.

A practice quite common among sheep men is to turn the flock into the corn field, after the corn is well tasseled. The sheep will clean out the weeds and grass, and usually will not eat any more than the lower leaves of the corn.

## KENTUCKIANS WILL BE REPRESENTED

At The Farmers' National  
Congress Which Will  
Meet in Florida.

Jacksonville, Fla., Nov. 4.—Kentucky will be well represented at the Farmers' National Congress, which meets in this city December 3-6 inclusive, according to assurances received by Director of the Sessions, B. K. Hanaford.

The gathering is of grave importance to the agricultural interests of the Nation, and some of the most distinguished men in the Union will be present to actively participate in the deliberations.

Jacksonville is arranging for a great crowd and special rates are being offered on railroads. The Congress meets at the same time the Florida

State Fair is in full blast and a marvelous exhibition is assured.

President Wilson will urge Foreign Nations to send their delegates to the Congress, and problems of great value will be discussed. Governors of several states have already accepted invitations to be present.

Vice-President Sandler, of Ohio, has arranged for a special train of delegates from that State.

### BRITISH CUT HOG RATIONS

Allowance of Concentrated Feed to Be Stopped; Says the Agricultural Board.

London, Oct. 28.—Keepers of pigs have been notified by the board of agriculture of the probable discontinuance of the small ration of concentrated feed which has hitherto been allowed them. The notice says shipping space must be used to bring American soldiers and their supplies to France. The board says it is because of the policy to force the war to an early successful issue that action in cutting down feed supplies is taken.

"I SOLEMNLY SWARE

## HARDINSBURG

Mrs. M. D. Beard visited her parents in Louisville this week, returning the week end.

The Breckinridge County Chapter of the Red Cross will meet November 25th to hold their annual election of officers. The October date was called off on account of the Influenza.

Mr. Akers sold his residence to Mr. Will. Cannon. Mr. Akers has gone back to his farm near Irvington, having moved his family Tuesday. Mr. Cannon and family moved in the day Mr. Akers vacated.

Dr. and Mrs. R. E. Stephenson moved into their new residence on North Main Street Monday.

Mr. Tom Sheeran moved from McQuady Friday visiting Hubert De Jarnette's property vacated by Will Cannon, who bought John Akers's residence on Main Street. Mr. Akers moved back to his farm near Irvington.

Miss Beulah Walls spent Saturday and Sunday in Louisville.

Heston Driskill will move to Cloverport as soon as the "flu" ban is lifted.

Will Jolly, of Irvington, was in Hardinsburg Thursday on business.

Fred Sadenwater and daughter, of Irvington, visited friends in town on Thursday.

Halloween prank players left evidence on Main Street Thursday night, in the shape of overturned wagons.

John W. Marr, of Garfield, was in town Friday.

Miss Martine Monarch, of Kirk, who is in Louisville, visiting with her aunt and uncle, Dr. and Mrs. Milton Board is now recovering from a very severe case of influenza.

Mr. E. M. Rhodes, of Axtel, and daughter, Miss Francis Rhodes, of Chicago, were in Hardinsburg visiting Friday.

Miss Louise Taylor and Jimmie Hendrick, who were reported victims of the "flu," have both recovered. No other members of the families of either had it.

Mrs. Patrick Dillon was called to Evansville Saturday by phone saying that her niece, Miss Anne Mattingly, was at the point of death.

Misses Ray Heyser and Edith Burns, of Cloverport, spent from Saturday until Monday with Mrs. Claude Mercer.

Mrs. Paul Chambliss, of McQuady, and Miss Ruth Chambliss, of Cloverport, are visitors of their mother, Mrs. Mattie Chambliss, this week.

## ADVANTAGES OF BUYING CERTIFICATES

From U. S. Treasury Bear  
Four Per Cent and  
Mature July 1919

In order that those who have income and profits taxes to pay may prepare themselves in advance for the large payments and to accumulate gradually the funds necessary to pay them, Collector of Internal Revenue, J. T. Griffith, calls attention of the taxpayers to the advantage of purchasing now Treasury certificates of indebtedness bearing four per cent interest and maturing July 15, 1919.

The Collector has been advised by the Secretary of the Treasury that certificates of this issue will be accepted at par with adjustment of the accrued interest under rules and regulations to be prescribed, in payment of income and profits taxes, when payable at or before maturity of the certificates.

It is the aim of the Government to make the flotation of this issue of certificates a popular one, the Collector says, and it will be to the advantage of those whose taxes are measured in small amounts, as well as the large corporations and persons of wealth to participate in the purchase of these impregnable securities.

These Certificates may be purchased through the Federal Reserve Bank, or at any bank or trust company. They are in denominations of \$500, \$2,000, \$10,000 and \$100,000.

## Christmas Cards

The simpler the Christmas present this year the more it is going to be appreciated by all good patriots. What can you suggest that would be more appropriate for remembering your friends than an attractive Christmas card which has been selected by you individually?

We have just received in our office new samples of engraved Christmas cards enclosed in envelopes. These are made by special order and the customer may use his or her own engraved visiting card plate if desired. We also have samples of printed cards.

We shall be pleased to show these samples to all who are interested in sending Christmas cards. Orders should be placed before December 1st.
